Subject: RE: EJ Taskforce Website - concerns re Lennar trucks leaving shipyard worksite - who is contact person?
Attachments: removed.txt

Lennar's complaint line for any issues is, and has been since 2006, **1-866-5LENNAR (1-866-553-6627)**

It is always best f to call and leave a detailed message because then the appropriate person can respond.

I just called and verified that the number is still active

Please note: I'll be on vacation Wednesday, September 16 through Friday, September 18.

thanks,

Karen Cohn first alerted me to the complaint written below on the EJ Task Force Website. I talked with Derek as soon as I got it, and he wrote the response below. I was intending to add contact phone numbers for Derek, me, and Jackie. Do you want to also post your contact numbers for Lennar related concerns? Or Mr. Johnson's number for Lennar? Or someone else? I could also post your numbers up if you want.

Subject: Fw: Complaint filed on IVAN database of the Bayview Hunters Point Environmental Justice Coalition

Lily, this is a more recent complaint you may have seen on IVAN, without much detail, concerning trucks coming from the Shipyard site without adequate dust control. I just wanted you to have Bronson Johnson's responses should you also get asked about this situation.

I don't know if the IVAN complaint concerns the Navy portion of the Shipyard, or through which gate the trucking traffic is being observed.

Just adding a bit of info. I've heard that the Navy has opened the Crisp Rd gate for certain hauling activities (Amy may know more). The location of the pin seems generally located on Crisp Rd., though not exactly at either gate. My earlier comments were focused on the other gate at Donahue.

Thx

B

Thanks for the forward. Vagueness makes this very difficult to substantiate. Traffic includes trucks related to Navy construction, Lennar construction, artists, Navy contractor staff, Lennar contractor staff, and new residents. Traveled roadway is squeakey clean so not sure how cars can be generating dust. Our new residents who live near the project gateway have not complained of the same.

Please let us know if there is any follow up required.

Thanks,
Bronson

It is unclear to me if the complaint re. road dust generated by trucks involves those coming from Lennar-managed or Navy-managed parcels at the Shipyard. Please let me know if you have any information that I can add to my response.
